

Manufactured Items Manager, MFN

Digital Manufacturing

DIGITALIZATION FOR SUSTAINABLE PRODUCT DEVELOPMENT AND MANUFACTURE

Process Planning Manufactured Items Manager

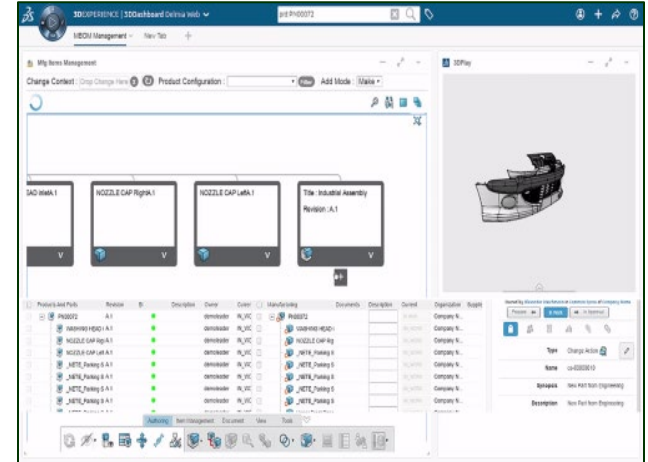

MBOM definition in a simple web UI

HIGHLIGHTS

- Defines, manages, and updates the MBOM directly from the 3D design
- Leverages the MBOM across other Manufacturing & Production applications
- Utilizes common change management tools across the Platform
- Provides a better understanding of engineering change outcomes
- Exports MBOM to the MOM system

USER VALUE

- Creates the MBOM from scratch, existing product structure, or template
- Efficiently manages MBOM completion, re-organization and updates
- Manages make/buy decisions and substitutes for parts & assemblies
- Defines substitute parts or assemblies
- Offers a light and efficient WEB UI

DIGITALIZATION FOR SUSTAINABLE PRODUCT DEVELOPMENT AND MANUFACTURE
